Re: County Reginal Infrastruction Service Program (CRISP) Grant Funding

Dear Wheatland County Councilors.

Thank you for your letter as to what the Gleichen & District Community Association has been doing with the CRISP funding. We appreciate this funding as it has allowed the boards to do upgrades to the hall.

1. Upgrades to the commercial stove intake.
2. Repair and upgrade the air unit.
3. Upgrade the junction box for the exhaust fan, replace contator sensing relay.
4. Heating – New air intake and air ducting with winter insulation.
5. Removed old hot water heater and replaced with an on demand system with venting.
6. Boiler room upgrades. New axiom chemical feeder for boiler system.
7. Safe blue new AED.
8. Security cameras inside and outside of hall.
9. Solar lighting throughout the hall.
10. 21" hurricane washer.

These 10 items have all been completed.

Items that still need to be done

- 1. Move the water lines form the north wall to the inside wall of the ladies washroom.**
- 2. Upgrade the filters in the boiler system.**
- 3. New pump for the on demand water heater to return the water to the kitchen faster.**
4. Complete disinfection of the hall because of Covid.

Cost for these upgrades are **\$28,372.94** for 2020. This is not including the 3 items still left to do.

Thank you again from the Gleichen & District Community Association Board for all the help you have given, as we could not have achieved all these upgrade to the Gleichen hall. We are committed to making sure the residents of Gleichen, Cluny areas have a hall they can be proud of and that it will be there for generations to come.
