

November 20, 2020

To the attention of our Members:

We are preparing to submit an Expression of Interest to the Emissions Reduction Alberta (ERA) – Shovel Ready Fund Program to facilitate SAEWA's Procurement Process. We are working with the urgency of the deadline date of December 20, 2020 to submit the application and supporting documents.

One of the key submission requirements is to provide letters of support that establish support for the project moving forward through the ERA Funding Program.

Background information on the ERA – Shovel Ready Challenge can be found here:

<http://eralberta.ca/apply-for-funding/shovel-ready-challenge/>

We would be pleased to receive your letter of support in advance of December 15<sup>th</sup> that will help us to show the level of collaboration in support of the importance of moving the project forward that will mitigate 7 million tonnes of GHG's and methane, stimulate Alberta's Economic Recovery, and create Clean Growth Jobs. (see template attached)

Thank you in advance.

To whom it may concern:

Re: ERA Shovel Ready-Fund Program Expression of Interest (Deadline December 20, 2020)

As a charter member of the Southern Alberta Energy from Waste Association (SAEWA), through its partnership with the \_\_\_\_\_,  
(example your waste commission, authority, or municipality) has been in continuous support of the proposed Energy from Waste project.

This is a worthy project for energy recovery of non-recyclable waste materials to reduce long term reliance on landfills and mitigation of 7 million tonnes of GHG's and methane which is prudent in reaching climate impact reduction. The Energy from Waste Facility will create Clean Energy Jobs and significantly help Alberta's Economic Recovery Plan.

Thank you.
