Hi Tracy

I have reviewed the assessment section of the Admin. Master Schedule of Fees and have added a couple new fees.

Attached is the suggested change on the spreadsheet and example forms (note I will need to update this once the new fee is approved).

As an FYI, we rarely have these requests, however when we do, it does take a lot staff time to complete these requests.

Currently we have not been charging any fees for these MGA 299 or 300 requests.

I have reviewed this document as requested. I have changed some of the bylaw numbers in the notes sections to reflect current bylaws.

I have one addition to the Protective Services – Animal Control section. The bylaw has added a section for emotional support animals which will need a GL code, and the section number under this bylaw is Schedule A Bylaw 2020-17.

And the fee is \$50.00. In the Fire Bylaw sections, I have reviewed this, and changed the sections in the notes to reflect the most current bylaw, and the fines/fees are the same.

Thanks
