### Key Issue(s) / Concepts Defined

Define the topic, reference background material and state question to be answered

Municipalities that share a border were required to enter into an Intermunicipal Development Plan (IDP) as of the April 1<sup>st</sup>, 2018 amendments to the *Municipal Government Act (MGA)*. With recent amendments to the MGA, if both municipalities agree they do not require an IDP, they are no longer required to enter into one. However with the IDP nearly complete, staff from both municipalities chose to continue the process. The Special Areas Board and Wheatland County did not previously have an IDP.

The plan area of the IDP encompasses approximately 22,773 acres in total. The IDP's land use goals and objectives focus on retaining agriculture and grazing as primary land uses, and that non-agricultural development should be limited in size and scale and only considered in areas that will not result in significant or negative impacts to agricultural lands or environmentally and historically sensitive areas. Section 3.7 Natural and Historical Environment has a series of policies that aim to protect and preserve the flood risk areas, and the environmentally and historically sensitive areas. The IDP's policies are high-level, focusing on when to notify the other municipality of new developments and encouraging collaboration. The policies address all of the *MGA* required topics while allowing each municipality to retain control within their respective jurisdictions.

Staff is recommending all three readings be considered if no further amendments or major changes are required following the public hearing and Council's review.
