| Stage of Project Design | | | | |
| 4 | <input type="checkbox"/> | The project is shovel ready with a final project design and detailed cost estimate completed Total of Detailed Cost Estimate: Click or tap here to enter text. | | |
| | <input checked="" type="checkbox"/> | The project is near shovel ready. Project design and cost estimate is currently in process. Total of Preliminary Cost Estimate: 6,250,000 | | |
| | | | <input checked="" type="checkbox"/> | < 50% complete |
| | Estimated degree of project design completion | | <input type="checkbox"/> | 50% complete |
| | | | <input type="checkbox"/> | > 50% complete |
| | Estimated date to complete final design and detailed cost estimate: November 2020 | | | |
| | <input type="checkbox"/> | The project is included in a long-range district capital plan Total of Budgetary Cost Estimate: Click or tap here to enter text. Estimated date to complete final design and detailed cost estimate: Click or tap here to enter text. | | |
| 5 | <p>Project Description – Provide a brief description of the project detailing the contribution the project will have on economic stimulus including specific benefits to the irrigation sector, the region and the Province.</p> <p>The C Canal system provides service to approximately 25% of the irrigation in the Western Irrigation District as well as a number of other significant water users. The WID provides raw water via the C Canal system to commercial and industrial clients occupying over 1 million ft² of space and employing upwards of 4000 people.</p> <p>This section of C Canal is presently unrehabilitated leading to significant losses due to seepage. Acceleration of this project could allow for construction in October 2021 and would result in 125 acre feet of water savings.</p> <p>Economic benefits of accelerating this project would include:</p> <ul style="list-style-type: none"> • \$18,750,000 spin-off benefit in addition to ongoing water-savings • Expansion of downstream irrigation by 60% would be possible after rehabilitation. • Approximately 30 people employed during construction. | | | |
